

# DB Feud 2017 - Game 3

## Rules

You are to separate into 2 teams of equal size.

In each round, a member of each team is gathered and the two are presented with a question and the number of top answers.

Each question was answered by 100, 200 or 300 chat members.

Amazingly, chat has been very good and this game is completely devoid of trolls (ish).

A player must buzz-in and give an answer. If the answer is not on the board or not the top answer, the contestant who didn't buzz in can give an answer.

The player with the topmost answer may choose to play or pass the question to the other team.

The team members must then each give an answer that fits the category. If it's on the board, the points for the answer are added to the bank. If it's not, the team gets a strike.

After three strikes, the opposing team gets the chance to give a single answer that has yet to be revealed on the board. If they get it right, they win the bank. If not, the playing team is awarded the banked points.

After 4 rounds, the team with most points gets to play the bonus round.

# That's it

I just wanted to say huge thanks to the all year long DBCommunity IRC channel and the VST who helped come up with questions and gameshow ideas.

Thanks to Sokar for playtesting all of these games.

Thanks to the hundreds of people in chat who helped fill out these silly surveys.

And thank you, DB crew for doing what you do. You guys are collectively awesome.

See you next year!
