DB Feud 2020 - Game 3

(requires 2 teams of 3-5 players each)

Rules

You are to separate into 2 teams of equal size.

In each round, a member of each team is gathered and the two are presented with a question and the number of top answers.

Each question was answered by 100, 200 or 300 chat members.

All chat members surveyed have something in common which may or may not help you answer.

Popular answers that do not fit the category or the spirit of the question <u>are</u> included.

A player must buzz-in and give an answer. If the answer is not on the board or not the top answer, the contestant who didn't buzz in can give an answer.

The player with the topmost answer may choose to play or pass the question to the other team.

The team members must then each give an answer that fits the category. If it's on the board, the points for the answer are added to the bank. If it's not, the team gets a strike.

After three strikes, the opposing team gets the chance to give a single answer that has yet to be revealed on the board. If they get it right, they win the bank. If not, the playing team is awarded the banked points.

After 4 rounds, the team with the most points gets to play the bonus round.

That's it

Once again, I'd like to take this opportunity to thank some wonderful humans:
Mangled Pixel, Map and Johnny for doing pretty much all of the graphics this year.
Brainstew for writing the Price is Right showcases.
Sokar for just being himself.
The all year long DBCommunity IRC channel and the VST for emotional and creative support.
Dawn Guard for admitting me to Gameshow Producing Fantasy camp every year.
The 955 chatters who filled out the Feud survey.
And while I've never met him, Alex Trebek for being the epitome of wholesomeness, positivity and making being smart cool. You've inspired me, introduced me to many of my heroes and you will be missed.
Have a great rest of the run!
